

## For Students

# Getting Started with Scoir + Common App™

Your school is using the Common App integration in Scoir this year! 🎉 While it won't be turned on until the first week of September, here's how you can prepare until then and when the integration goes live.

## How It Works

We're not building the full Common App application experience *into* Scoir, and you'll still need to set up a Common App account to complete and submit your applications. Once the integration is turned on, you'll connect your accounts, and your Common App activity will sync with your My Colleges list in Scoir.

Throughout the experience, there are certain actions you'll need to take in Common App, and others you'll complete in Scoir. Here's a look at what actions you can take now, and what to expect in September when the integration is turned on.

What You Can Do Now	Where
○ Create an account and begin completing your My Common Application. Add your high school in the Education section (which is how Common App will recognize you as a Scoir student)	Common App
○ Add colleges to your list that you intend to apply, indicate which round, and apply when you're ready—this will be reflected in Scoir's My Colleges in September!	Common App
○ Complete your FERPA Release Authorization, make Fee Waiver requests, and complete your portion of Early Decision Agreements in Common App for those colleges you're applying via Common App.	Common App
○ If allowed, request teacher recommendations. <b>You can only assign one recommendation per teacher across all of your Common App colleges.</b> This limitation only applies to Common App schools.  <i><b>NEW!</b> One change you'll notice is once recommendations are complete, you'll need to assign them to colleges. Today, you'll assign recommendations to colleges you're choosing another application method for, and in September, you'll assign for Common App colleges. To keep things easy, we recommend asking for general recommendations when possible since they can be assigned to multiple colleges.</i>	Scoir
○ Continue building your <a href="#">My Colleges</a> lists in Scoir, indicate colleges you're applying to using other application methods, and keep it as up to date as possible! We'll also support marking colleges as Applying when Common App is the application method, but we'll limit the information provided and prompt when it's necessary to take actions in Common App.	Scoir

## Coming in September 🚀

Once the Common App integration is live in Scoir the first week of September, here's a look at actions you'll take and what you'll see in your Scoir account.

1. You'll connect your Scoir & Common App accounts via your Scoir profile
2. Your Common App activity will sync with your My Colleges list in Scoir
3. You'll assign completed teacher recommendations in Scoir for Common App schools. Prior to the integration being turned on, you'll only assign these for colleges your applying to via other application methods

If you have any questions in the meantime, please contact your counselor. Stay tuned for additional resources as we near September!
