Using Common App™ with Scoir

Each spring, schools can opt into the Scoir + Common App integration. It's up to your school whether or not you leverage the integration. We understand that some schools will find value in the changes, and others may decide it's not the best fit to integrate based on their particular needs.

Opting into the Scoir + Common App Integration is closed for the 2025-26 school year. If you would like to opt in for the 2026-27 school year, please contact your Customer Success Manager.

Schools Opted Out of the Common App Integration

If your school is not using the Common App integration, but does use Scoir to send application documents, here's how students will use Common App with Scoir. There are aspects of the application process that students will have to complete in both the Common App as well as in Scoir.
