First-Year Applications with Scoir

The Quickstart Guide

Features & Benefits

- Experience a seamless transition from college search to the application phase of the admissions process
- Enter your information just once, instead of every time you apply somewhere new
- Identify Coalition member schools and fee waiver eligibility more easily, (saving money sounds good to us!) Focus on what matters most: discovering colleges that best fit your academic, social, and financial needs

Quick-Start Guide

1. Complete and submit core questions on Scoir

This can be used for any school you apply to through Scoir! Before applying, be sure to confirm the information you provided as you will not be able to edit once you've moved into part 2, answering a college's supplemental questions.

2. Complete and submit supplemental questions on the college's website

Step 2 will take you outside of Scoir to answer a college's supplemental questions. You'll be given an idea of how much you have left to complete before leaving Scoir. Once you're ready to submit, you'll provide payment (or a fee waiver, if eligible) directly to the college.

Note: You don't have to complete your application in one sitting. You'll be able to pause and resume where you previously left off.

Common FAQs

How does this benefit me?

Once you're ready to apply, basic information contained in My Profile will be pre-filled when possible. You don’t have to waste time copying & pasting the same information into a separate portal.

What is the Coalition?

Member schools work to make college affordable and ensure students graduate on time. Most students who graduate do so with little-to-no debt.

Which colleges can I apply to via Scoir?

The list of current colleges that you can apply to with Scoir is growing each week and can be accessed here.

What if I want to apply to a non-Coalition college?

If you wish to apply to a non-Coalition college, your process and your counselor's remain the same. You will apply via the application method that makes the most sense for you, and once complete, you will update Scoir to reflect the submission. Your counselor will then send supporting application materials, as before. If your school has opted in to our Common App integration, your college lists will automatically sync between Scoir and Common App.

Can I change the information that is auto-populated from my profile prior to application submission?

Yes, you can edit all of your information, prior to application submission. Some fields will be prepopulated but we’ll ask you multiple times to verify that information before you initiate your applications.

I don't have a Scoir account. Can I apply with Scoir?

To apply with Scoir, you will need to create a free account. Scoir is free for all students, whether you're using it in collaboration with your high school or independently.
