

Considering Scoir?

Learn why 2,000+ high schools have already made the switch!

Dedicated support

99% of support tickets are resolved in less than 24 hours

We are really enjoying Scoir so far—especially the part where I ask a question and an actual human responds, haha! The customer service alone would have been enough to switch from another platform.

Evelyn Cohen

Watkinson School, CT

Time-saving software

Features specifically designed to save hours and energy

I just uploaded my first test data file to Scoir. What would sometimes take me an hour to do in our other system took less than a minute. And, Scoir's drag and drop data entry is awesome! I am so glad we made this move!

Cyndi Choate

Counselor, Lutheran South Academy, TX

Student-centered design

Reduce the learning curve and increase adoption

I've introduced Scoir to our seniors, and enjoyed hearing students appreciate how much more user friendly the product is... Students notice and are excited!

Anne Aguirre

Notre Dame High School

How Scoir compares to the alternatives

Our mission is to ensure you have what you need to make an informed decision.

The Scoir Difference

Here are just a few ways we stand out above the competition

01

Your domestic solution for career and college readiness

While Scoir supports the international market, we're headquartered in Pennsylvania (Cialfo is headquartered in Singapore) and we specialize in high schools, districts, colleges, and universities in the United States. As students explore best-fit careers and colleges, know that we're tuned into the latest policies that affect college applications, financial aid changes, modern careers, and more.

02

Scoir College Readiness Curriculum

Included free with every Scoir account are comprehensive [50+ ASCA-compliant lesson plans](#) for grades 9-12. This curriculum contains detailed lesson plans and activities covering topics from career exploration to financial literacy. Lessons build as students grow and everything is mapped out in advance for you! We also have a Career Readiness Curriculum coming in 2024! [Sign up for the waitlist](#) to be the first to know.

03

Features built with you in mind

Using Scoir, you'll see right away that our features aren't watered down. On top of our robust college and career exploration tools, you'll access features like document storage, the ability to resend docs and upload letters of recommendation on behalf of others, an integration with Clever or Classlink, and so much more.

04

PrinciplesYou Character Assessment

[PrinciplesYou](#) is a scientifically-validated character assessment that engages Gen Z in self-discovery, and it's included with Scoir! PrinciplesYou is designed to tap into character traits and measures them across three orientations: Cognitive, Interpersonal, and Motivational. Students receive a detailed report and get matched with best-fit careers based on their results.
