

# Considering Scoir?

Learn why 2,000+ high schools have already made the switch!

## Student-centered design

Reduce the learning curve and increase adoption

I've introduced Scoir to our seniors, and enjoyed hearing students appreciate how much more user friendly the product is... Students notice and are excited!

**Anne Aguirre**

*Notre Dame High School*

## Time-saving software

Features specifically designed to save hours and energy

I just uploaded my first test data file to Scoir. What would sometimes take me an hour to do in our other system took less than a minute. And, Scoir's drag and drop data entry is awesome! I am so glad we made this move!

**Cyndi Choate**

*Counselor, Lutheran South Academy, TX*

## Dedicated support

99% of support tickets are resolved in less than 24 hours

We are really enjoying Scoir so far—especially the part where I ask a question and an actual human responds, haha! The customer service alone would have been enough to switch from another platform.

**Evelyn Cohen**

*Watkinson School, CT*

# The Scoir Difference

Here are just a few ways we stand out above the competition

# 01

## Increased Student Engagement

Students love using Scoir because we built the experience with their generation in mind. That means they engage with college and career discovery quickly and organically. In fact, over 140,000 students use Scoir even when their high school isn't! See how one high school saw a [92% registration rate for seniors](#) and 84% of students with active college applications.

# 02

## Scoir College Readiness Curriculum

Included free with every Scoir account are comprehensive [50+ ASCA-compliant lesson plans](#) for grades 9-12. This curriculum contains detailed lesson plans and activities covering topics from career exploration to financial literacy. Lessons build as students grow and everything is mapped out in advance for you! Coming in summer 2024, you can also access [Career Readiness Curriculum](#).

# 03

## Features built with you in mind

On top of using features that counselors love like the ability to resend docs and upload letters of recommendation on behalf of others, you'll also access features like creating custom properties which are fields that you create allowing you to store, view, filter, and export unique information about your students and school in Scoir. Plus, create Tasks to help keep everyone on track!

# 04

## Character and Interest Assessments

[PrinciplesYou](#) is a scientifically-validated character assessment that engages Gen Z in self-discovery, and it's included with Scoir! PrinciplesYou is designed to tap into character traits and measures them across three orientations: Cognitive, Interpersonal, and Motivational. Students receive a detailed report and get matched with best-fit careers based on their results.
