Scoir College Bound Curriculum

The Scoir team's vision is a world where every student understands, appreciates, and values their unique talents and pursues career paths strongly matched to their interests and abilities. Scoir also believes higher education is the gateway to expanded opportunities for personal growth and career advancement.

The Scoir College Bound Curriculum is a comprehensive set of lessons created to support school counselors as they help students transition into adulthood, postsecondary education, and the world of work.

This curriculum is designed to build in complexity and detail as students progress through high school. Each lesson can also stand alone which allows counselors the option to choose specific topics based on preferences and needs for grade level or individual students.

For schools that offer a College Seminar course, this curriculum is an excellent instructional resource to incorporate. Scoir is focused on providing counselors with valuable materials that are easy to implement and promote and support student success.

This curriculum guides and supports the work you do in preparing students for postsecondary pursuits and provides lessons related to the following areas:

- College Readiness
- College Search and Discovery
- Career Exploration
- Financial Literacy
- Digital Literacy
- College Application
- College Athletics
- Military Careers

ASCA Student Standards are aligned within individual lessons to clearly outline how the Scoir Curriculum supports the academic achievement, attitudes, and skills students need for college and career readiness.
